BRANDED AS INSINCERE

GERMANS CONTINUE TO DICKER WITH AMERICA FOR BEST END POSSIBLE

OFFICIAL TEXT NOTE RECEIVED
BY PRESIDENT. WILL AN-
NOTICE DECISION BEFORE
TOMORROW

BRANDED AS INSINCERE

English Papers in Commenting On
Note Claim It Is A Monument Of
Insincerity. Unconditional Sur-
render Demanded

Washington, Oct. 22.—The Swiss charge's de affairs appearance at the state department with the last German note was delayed for several hours as the task of decoding and translating proved to be long and tedious. Considerable difference in verbiage may be shown and it is understood the official text will clear up certain obscure passages in the wireless version received yesterday.

Indications were an announcement of the decision by the president could be expected before tomorrow. Secretary Lansing was with him until near midnight last night discussing the wireless version but there now must be further conference and it is now assumed there will be additional exchanges with the allied capitals.

Thoroughly Insincere
London.—A monument of "insincerity" is the word the Times characterized the German reply to the note waiving a detailed examination of the note saying the only important consideration is whether Germany intends to accept the terms of the armistice in accordance with the methods defined by president Wilson. The Times comments:

"An armistice is to be had on terms laid down by the military and naval authorities of the associated forces. It is not to be had on the enemies' terms or upon any terms that leave room for subtlety."

Comment Withheld
Comment continued to be withheld regarding an indication of the president's view. Everyone expected him to decide quickly whether the note with its promises in support of the plea for an armistice and its assurance that the government in Berlin is responsible to an arbitrary power creates a new situation requiring action.

Informal opinion as to the probable attitude of the president did not differ on the great point that immediate action is not at hand and however slight the German overtures may be, the government in Berlin is responsible to an arbitrary power creates a new situation requiring action.

Some observed they thought no answer would be made and the German armies left to complete their enforced evacuation of occupied territory as they might wish to bargain now on their heels. Others believe the next step in agreement with the allies would be suggested by the German military command and they would approach General Foch on the subject of an armistice. Those who are convinced the enemy is beaten into submission are merely a prelude to complete surrender in the near future if the allies hold firm to the determination to accept nothing less than a complete unconditional armistice.

Private Disputes
It was learned today a private dispatch from Germany has been published in a Copenhagen newspaper stating that the German government is receiving secret orders not to return to the front and to this extent demobilization has begun. Military men here, however, regard the news as a desperate effort to be given while the American and allied troops are at bay at certain points on the western front.

Washington, Oct. 22.—The official text of Germany's latest note to President Wilson was received by cable today at the Swiss Legation. Frederick Herderlin, the Swiss charge, arranged to deliver it to Secretary Lansing as soon as it could be decoded.

London, Oct. 22.—The German reply to President Wilson is regarded here as a monument of insincerity and protestation.

In government diplomatic and political circles the view is, it is not a device to simply a resort to verbiage designed to cover the face of a reply. The highly placed official described it as "badly camouflaged in ancient."

The government has not considered the reply in detail through the Foreign Office. It is understood that a long and protracted deliberation is being held.

Socialist's Opinion
Henry M. Hyndman, leader of the British Socialists, said:

"The reply is another peace bluffing. I hope President Wilson will answer it very abruptly and briefly."

Long Needed Rain Falls in Minnesota Stamping Out Flames

[BY ASSOCIATED PRESS.]

Duluth, Minn., Oct. 22.—A heavy soaking rain, that had fallen eleven days previously would have averted the northern Minnesota conflagration, is falling today, putting out what remains of the embers of destruction and permitting the day companies to return to their stations. Last night Superior and Oliver, Wis., people fought a stubborn fire that threatened Oliver until the wind fell.

Five thousand pieces of furniture were moved from Duluth to farm houses just built, and reconstruction work is progressing full up to expectations in the department. At the building of the First National bank will be resumed Friday. The bank is now located in a temporary building near the old location. It is offered as a loan to the Northern Lumber company and the Clouquette Lumber company will begin business at once in temporary office buildings.

Tobacco Corporations

Charged by U. S. With

Price Discrimination

[BY ASSOCIATED PRESS.]

Washington, Oct. 22.—Five tobacco corporations and a number of their officers and directors were charged in a formal complaint by the federal trade commission with price discrimination in the sale of cigarettes and other tobacco products tending to create a monopoly and unfair method of competition and the maintenance of inflated prices to the detriment of the public.

The defendants were ordered to appear in Washington on December 1. The complaint charges that the defendants should not be required to dispose of stock unlawfully held in other companies in alleged violation of the Clayton law.

October Draft Program

Will Take 350,000

Selects to Camps

[BY ASSOCIATED PRESS.]

Washington, Oct. 22.—Draft calls suspended three weeks ago, because of influenza epidemic, now are going out again. The War Relocation Administration's office has decided it is safe to send the men to camps. The local and exact number of men will not be announced until the October program is in effect. It is understood that the number of men called, during the remaining days of the year, will be about 350,000 men and the number of camps, during the remaining days of the year, will be about 350,000 men.

The largest call suspended was for 1,000 men who were to have entered October 14.

REPORTS CLAIM THAT

INFLUENZA IS INCREASING

[BY ASSOCIATED PRESS.]

Madison, Oct. 22.—That there is still an increase of the "flu" in many cities outside of Milwaukee, and that the rural districts are gradually becoming infected, is the opinion of Dr. C. C. Harper, state health officer today. He said that it is probable that the disease may linger in the state for a year or more. He urged the people to exercise greatest care.

Milwaukee.—There were 438 new cases and 13 deaths from Spanish influenza in Milwaukee, during the last twenty-four hours the city health department today reported. The number of new cases shows considerable increase, as during the preceding week, only 444 cases and 13 deaths. The health commission had been considering the lifting of the ban as to closed places, because of the improvement in conditions, but has decided to wait for the time, to abandon the idea.

APPEALS OF OFFICIALS

WILL BE HEARD SOON

[BY ASSOCIATED PRESS.]

Port Worth, Oct. 22.—The appeals of three officials of the Farmers and Laborers' Protective Association convicted a year ago in Abilene, Texas, after a trial, will be presented before the United States circuit court of appeals here next month.

The men were convicted of conspiracy to defraud the government, and their organization had for its insignia, according to District Attorney Odell, a leather strap to represent the slavery of the workers, a disk and a noose, and a banner with the words "protection and a pistol as a mark of enmity to capital."

The original trial of the three men, G. T. Bryant, state orator, E. L. Powley, secretary, and Samuel J. Powell, treasurer, last six weeks and more than 500 witnesses were examined. Thirty-seven others named in the indictment were acquitted.

The court, which the three were found guilty charged conspiracy to overthrow and destroy by force the government of the United States, charged that the three had conspired to obstruct the selective service law, then before Congress, were advanced at the trial.

The charges that plans were made at meetings to kill conscription officers; that members were urged to buy high-powered rifles; that they were to be free to return to the country by telephone and telegraph lines as a means of retarding the raising of an army.

In explaining why members had armed themselves, defense witnesses said they had expected Texas to be invaded by Mexicans if the United States troops went to fight Germany and that the gun were for their protection.

ATTEMPT TO ASCERTAIN

WHY TOWNS FELL BEHIND

[BY ASSOCIATED PRESS.]

Fond du Lac, Wis., Oct. 22.—The effort in Judge Fowler's court here to find out why certain townships fell behind in their subscription for the Fourth Liberty Loan and indicated apathy toward the war effort, was continued today. Three townships, loan chairmen were the witnesses today, others will be called.

"YOUR SHARE IS FAIR" PROVING BIG SUCCESS

GEORGE S. PARKER, CAMPAIGN CHAIRMAN STATES THAT NEARLY ALL ASSESSMENTS IN ROCK COUNTY HAVE BEEN PAID.

VERY FEW SLACKERS

List of Delinquents Shows that There Are Only a Small Number in County Who Have Failed to Pay.

Rock County has made an enviable record in the "Your Share is Fair" campaign according to George S. Parker, campaign chairman. Nearly every resident in the county has paid his assessment and those who have not are expected to do so within a short time. Each day Mr. Parker receives a check from some resident and it is hoped that before long that Rock County will be 100 per cent.

Occasionally happened when the campaign was out, that some man or woman was out of the county or town, and was overlooked. This was the case with E. J. Garrett, a prominent citizen of Evansville, Wis. In checking up Evansville it was found that Mr. Garrett's subscription was missing and his name was called to the list. He immediately wrote out his check for \$100, which was just received by George S. Parker, campaign chairman.

There are a few delinquents in Deloit and not more than three or four in Janesville. Many of the towns and townships in the county have an entirely clean record. When one realizes that the people of Rock County have not been solicited on the various war bond drives during the summer months as have other communities, the benefit of the combined drive, such as took place in March last, will seem more apparent.

The man or woman who refused to pay his or her share to the Y. M. C. A. Knights of Columbus, Red Cross, Salvation Army, etc., has become about as unpopular as a pro-German sympathizer.

It is hoped that Janesville will do as well in cleaning up all of her delinquents on this as she did on the "Your Share is Fair" with the fourth Liberty Loan. It is a great record and a patriotic thing to do.

HOME REGISTRATION COMMITTEE IN SESSION

Meeting Held at Chamber of Commerce Yesterday Afternoon.

Will Make Another Survey of Rooms in City.

A meeting of the Janesville Home Registration Service committee was held at the office of the Chamber of Commerce yesterday afternoon. William McVicar, chairman of the committee presided at the meeting.

Mr. McVicar in an address to the members told in detail the purpose of the committee. He also appointed Mrs. Herbert Ford as member of the committee representing the women of the city.

Mr. Green was instructed to employ a clerk to have charge of the files and assured the committee that a young lady would be employed by Wednesday.

The manager then reported having received one unit of cards for files and posters. He informed the committee of the use to which these cards and posters were to be put. He further stated that the survey made by the Chamber of Commerce would have to be repeated as the new card campaign is being conducted.

The chair appointed Mrs. Herbert Ford, 58 in number, would meet Wednesday afternoon and immediately begin the second survey.

The manager then told of the necessity of having all available buildings for conversation purposes, and the following committee was appointed: Fred J. Schmitt, chairman, Frank J. Jackson, C. J. Smith, H. H. Biles, H. J. Cunningham.

The importance of this committee was then impressed on those present and the fullest co-operation requested by the chair.

The committee was informed that the government insisted upon proper housing for workmen and their families and that this service was designed for that purpose. Proficiency also was discussed.

Meeting Disposed: Crystal Camp of Royal Neighbors will not hold their regular meeting Wednesday evening on account of the epidemic in the city. By order of Grace.

OPENED DRUG STORE FORTY YEARS AGO

J. P. Baker Started in Business in Present Location on October 22, 1878. One of City's Oldest Business Men.

"There are not many business institutions in Janesville that have been conducted for forty years, continuously under the same head," said J. P. Baker in commenting on the flight of time a few days ago.

On October 22, 1878, just forty years ago today, Joseph P. Baker went into the drug business at the corner of what is now known as the Franklin street and has been actively engaged in the same location ever since.

J. P. BAKER.

At that time, Mr. Baker in commenting on his long business career in Janesville stated that in his belief there are but few retail business men in Janesville who have the same long record.

Mr. Baker opened his first store when Janesville was considerably changed from its present solid business appearance. Year after year he has watched with interest the growth of the city. He has watched structures being erected where at one time there was nothing but vacant ground. He has seen the stories of Janesville when it was comparatively a thriving country town.

Mr. Baker's store has been a sub-station for the Gazette for a number of years.

Mr. Baker is an optimist of the sort that radiates his faith in human nature to others, and as a dry joker he has but few equals. He is a firm believer in the outdoor life and much credit is attributed to his present vigor to that fact.

MILTON OVER THE TOP IN LIBERTY LOAN DRIVE

Milton, Wis., Oct. 21, 1918.—This village went over the top on the Fourth Liberty Loan, despite all predictions that it would not be able to raise its quota. Great credit is due the committee who labored diligently and early and late, facing what seemed to be an impossibility, with a never give up spirit that made victory.

Possibly there is not another village in the state with so large a percentage of aged people of small means without any of great wealth, and no large corporation on which to draw for funds, despite this fact the village exceeded her quota on a goodly amount, while the largest subscription was for \$1,500. The bank of Milton sold over \$57,000 worth of bonds during the campaign. In addition to the subscription in the village, the college, S. A. T. C. camp, bought \$1,800 worth of bonds. One hundred and eighty-eight persons purchased a bond, most of them paying cash. This is certainly an excellent showing for a population of less than a thousand, being about one out of five of the total of men and women in the corporation. The whole number of bonds sold by the bank of Milton, during the drive was three hundred and twenty-five.

The Black Cabinet Factory, employees did nobly on the Fourth Liberty Loan drive, every one buying a bond except one man who was sick in bed. An example that ought to use some of the village's well-to-do slackers here feel ashamed.

Milton, Oct. 22.—John E. Holmes who is a "Gob" at Great Lakes, will represent Milton College in the 1918 volume "Poets of the Future" in Braithwaite's anthology of "College Verse." Holmes, poet, this honored, is entitled "Renunciation."

Private W. W. Holliday, from the Camp Logan rifle range division, has been enjoying a furlough with his home folks.

Marvin Ames has taken the position at the depot under Harold Barhart, who was obliged to resign on account of ill health.

"Gob" John E. Holmes, of Great Lakes, was at home this week. He has just recovered from an attack of influenza.

The S. A. T. C. drilled in the park Monday, and ate their first "chow" in the mess hall.

Charles V. Wells of Milwaukee spent Saturday at the home of his father, B. H. Wells.

Private Roland Maxon came down from his division for a Sunday visit with the home folks.

Mrs. Belle Whitford Davis of Rock Prairie, is visiting her parents, Mr. and Mrs. M. C. Whitford.

Darwin McWilliams and wife of Stoughton, are visiting their parents, Mr. and Mrs. D. P. McWilliams.

J. L. Freeborn of Exeland, visited Milton relatives Sunday. He was called to Madison by the illness of his son, Victor, who is at the S. A. T. C. camp, and a convalescent from a "flu" attack.

Agent Frank H. Holmes of "Rifle" Center spent Sunday at the home of his father-in-law, F. G. Rumpf, and shook hands with friends here. He has the third best station on the Prairie du Chien division of the C. M. & St. Paul railroad.

Milton To Have Guard Co.
Milton, Oct. 22.—The organization of the Home Guard company here, has been authorized by the Adjutant General's office and muster-in appointed for Wednesday night, Oct. 30. Captain Bauman of the Janesville State Guards has been appointed to muster in the company. The boys are busy this week working out the details of the organization, measuring uniforms, etc. The members have to buy their own uniforms, and the guns will be furnished by the state. The boys hope to get the uniforms all ordered in a day or two so that they will be here for "muster-in" next week.

CHICAGO MARKETS
Chicago, Oct. 22.—A hog survived the slaughter on Monday's market. That quotation was registered early but a 25¢50¢ break wiped it out. Late in the season heavy packing stock sold at \$15 and good butcher weights at \$17.60.

Since the slump began prices have declined \$3.60 per cwt, which is nothing unusual for this season, but the \$18 minimum announced for October conveyed an impression that the market would be reasonably stable.

Every stockyard in the country was full of bovine trash. Cattle with weight were wanted at steady to strong prices, but acres of trash had not elicited bids at a late hour.

Some lambs were \$1 per cwt higher than last week's close, middle grades getting most of the bulge. A \$16 top was made, choice lambs being scarce. The market is ripe for a reaction.

Good Cattle in Demand
A crop of 30,000 cattle carried 11,000 westerns, the latter being the poorest of the season. The \$18 minimum grades of branded steers weighing 900@1,500 lbs, showing up in profusion. Deducting western stuff and trash, there were few good cattle, anything with weight getting action.

Choice to prime steers 18.00@19.50
Good to choice steers 16.00@18.50
Meat to good steers 14.25@16.50
Fair to medium steers 11.50@14.50
Common to fair steers 8.50@11.50
Stockers and feeders 7.50@11.75
Good to choice cows 8.75@11.75
Fair to good cows 7.75@8.75
Canners and cutters 6.00@7.00
Fat and Bologna bulls 7.00@11.50
Good to choice calves 15.00@16.25

Hogs broke 25¢60¢ per cwt. on a run of 32,000, of which 5,000 were a real top pack. There was a slow deal from start to finish.

Good to choice mediums 17.50@18.00
Choice to bacon weights 17.25@17.75
Good to choice heavy 17.25@18.00
Good to prime mixed 16.75@17.45
Fair to good mixed 15.75@16.75
Good medium packing 15.50@16.00
Fair to good heavy 14.75@15.50

Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: Before the war I was engaged to a young man two years older than I, whom I loved as that time. We became engaged later I stopped going with this young man and started going with a soldier. I loved this boy and promised to marry him as soon as he returned. Shortly after he left I met another soldier and he loved me very much. I went with him seven months and promised to marry him when he returned. Then I did not go with any boy steady once about three months ago. I started going with a young man who fell in love with me. He asked me to marry him before he had to go to the front. I would, but did not really mean it. He told me he had to go away and would have good news when he returned. Yesterday he came back, took me for an auto ride and to a nice new house where I met his father, who said he had built the house for us and also said his mother would be here in three months for the wedding. In the meantime the first boy says he will not break the engagement to me. Both the soldiers write to me and ask me to marry them. I should marry anyone else he simply drift to the bottom of the earth. I can get a letter from his mother begging me not to break my promise to him. But he is not a snicker. He will go willingly when called.

Which one should I marry? Every boy I have ever gone with begged me to marry him. While the last boy was away I met a lieutenant and I really love him more than any except the first soldier. He asked me to marry him and I told him I would wait for him a week. I want to marry the first soldier, but I am afraid to wait. He might not come back. I really want to marry the first boy. Wait for the first soldier? Wait for the second soldier? Marry the boy who has built us a

house? Or the lieutenant? J. M. You ought not to marry at all. You seem to lack a sense of honor entirely. How the first soldier would be willing to trust you, knowing the numerous times you have been engaged, I cannot understand. It will be better to make the man who built the house unhappy now than to marry him without love and prove faithless. Dear Mrs. Thompson: Which is better—to tell a boy when it is time to go home, or to let your parents know that a boy friend who comes from a long distance and ask when he is at our house he thinks he can stay very late. He comes about 3 o'clock and stays until twelve o'clock. My parents say he must go home by half-past ten. Should I let him tell him or should I tell him myself that he must go by ten? Either way would be all right. If I were you I would tell him that your parents say you must not entertain company after ten o'clock. If he does not go after that you say, let your parents talk to him. Dear Mrs. Thompson: I am sixteen years old and I have just started to work. My employer has asked me to do up my hair and I do not want to do it as it is curly and I think it is better hanging down my back. Do you think he has any right to tell me the way I am to comb my hair? M. T. B. Your employer can tell you, of course, but you do not have to follow his advice. It might be well though to give him some thought. Perhaps you are old enough and big enough to begin wearing your hair up. If you have a piece of some import in the office, the change may give you a more dignified appearance. Dear Mrs. Thompson: My husband is in Class 1-A. He was called for military service Oct. 3, but the call was later canceled. He is a very good man and I love him very much. I really love him more than any except the first soldier. He asked me to marry him and I told him I would wait for him a week. I want to marry the first soldier, but I am afraid to wait. He might not come back. I really want to marry the first boy. Wait for the first soldier? Wait for the second soldier? Marry the boy who has built us a

EVERYDAY ETIQUETTE

In corresponding with soldiers and sailors, young women would do well to remember that no one knows into whose hands the letter may fall, so it is wiser never to write anything which later no one may have occasion to regret. At a dinner table it is a guest's privilege to pass any article of food, if he chooses, but a guest should accept at least a small portion of most of the dishes placed before him, even though they are merely trifled with. It is very rude to express dislike for any particular article of food. MARION B.: It should be remembered that the termination of an engagement by a young woman may be accepted without question, since she is not bound to declare any other reason than a change of mind. Nevertheless she owes it to her own reputation that her decision should rest on sufficient foundation and unmistakably pronounced.

Decorate with parsley. Fill cups and add one tablespoonful mayonnaise. Serve on lettuce leaf and garnish with sprig parsley or celery. Eggs, Potatoes and Carrots—First garnish a large platter with parsley, then pile the diced and seasoned carrots around the edge, pile lightly on potatoes in the center. Peel the eggs and place in little nests on the potatoes, sprinkle with pepper and serve. This looks so attractive that it is very appealing. Carrots—One-third cup lard with three-quarter cup brown sugar, and one egg, add one-half teaspoon cloves, two teaspoons cinnamon, one teaspoon nutmeg and a pinch of salt sifted with two cups barley flour. Stir in one cup prune juice. Remove stones from heaping cup of prunes and add, last with one egg, to the batter, which should be quite stiff. Do not beat until all is stirred well (a good rule for cakes). Then beat hard and bake in a greased pan in medium oven for about one-half hour.

Brained Tongue With Aspic Jelly—Boil tongue until tender. Chop fine one onion, head of celery, four cloves, salt and pepper. Cover with cold water. Heat and pour over the tongue. Remove the tongue, strain the boiled liquor and add it to a box of gelatin which has been soaked in cold water. Heat and pour over the tongue. Serve cold.

Egg Flour Pastry—Sift and thoroughly mix together one cup flour, one third teaspoon salt and two teaspoons baking powder. Cut into this one-third cup fat and add sufficient water to make a soft dough. This pastry isn't quite as tender as wheat pastry, but it has fine flavor and is of a crisp, flaky texture. Try it first with a crisp crust fruit pie.

Spiced Tomatoes—Wash green tomatoes, cut in slices one-fourth inch thick. Sprinkle salt between layers and let stand overnight. Drain off juice and scald ten minutes in weak vinegar. Make a dressing of oil, with cinnamon bark the predominant flavor. Drain potatoes from vinegar into cold sweet spices; let come to boil and boil three minutes. These are done and will keep without canning if put down in crock and securely covered when cool.

Fried Tomatoes—One peck green tomatoes chopped fine. Allow them to stand an hour or two, then drain. Add four peppers and four onions chopped; scald together two quarts sugar, one-half cup mustard seed, two cups brown sugar, one tablespoon cinnamon, allspice, and three tablespoons of salt and a teaspoon of cloves. Pour over the hot vegetables and scald through. Put in glass jars while hot.

Tales of the Friendly Forest

Now let me see where we left off in the last story. Sometimes I almost get all mixed up, and perhaps I'd never get things right if I didn't make a

scrapbook of these Billy Bunny stories so that I can look back and see whether it was Uncle Lucky or the Good Natured Bear, or the Yellow Dog, or Aunt Cornelia who was supposed to stop doing something because I didn't have any more room.

Well, here we are. The Yellow Dog had just posted his photograph to the Postoffice Lady, who was an old maid duck, he jumped into the sleigh and Uncle Lucky said:

"Hurry on, you Reindeer. Make the snowflakes fly. Faster, faster, faster. Don't you balk or shy!"

Add then you should have seen how those Reindeer went. Well, they went so fast that pretty soon their feet

brushed the earth, and then they didn't touch at all, and then, oh, me, oh, my! They rose right up in the air just like a new sailing boat.

Well, pretty soon they beat on the stepples, over the houses and over the people. Goodness me! There goes my typewriter again, making up its mind to go to the window and see and try and not to get in my way.

And again I'm going to change the ribbon and get one that is red, white and blue. My typewriter must show its colors as well as a man.

If it doesn't sail through the sky in a slight drawn by reindeer, so he said to Billy Bunny, "What do you think is going to happen?"

"Oh, don't worry, Uncle Lucky," answered the little rabbit. "I've seen reindeer before. Santa Claus riding through the air in his sleigh."

And this sort of comforted the old gentleman rabbit, you know. He began to smile and the Yellow Dog began to bark two times and a half, and after that they came to a snowy road right in the sky. And the hoofs of the reindeer made only tinkling sounds on the snow.

Well, after a while, they came to a place where the Great Bear and the Little Bear lived. It was way up in the Star Country, you see, and of course it was all very dark. And the reindeer stopped to know the way, and so Uncle Lucky just let them go. And then the Great Bear, who sat on a piece of ice that had five sharp points just like a star, said:

"Mr. Lucky Lefthindfoot, I'm glad to see you. And then the Little Bear, who also sat on a five-pointed piece of ice, said:

"Ye gods! My! And then the Reindeer stopped, for they had been going around and around the two bears all the time, you know, and the two little rabbits sat out of the sleigh. And in the next story you shall hear what happened after that."

HEALTH TALKS

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

MORE TATER, LESS WHITE BREAD

In America and Canada we could very well dispense with white flour altogether in the diet. It is not at all essential to perfect nutrition and health.

The Irish potato is how. The good honest Irish potato, of home made all white bread: Water, 30 per cent; lean, 9.1 per cent; fat, 1.6 per cent; carbohydrate, 53.3 per cent; fuel value per pound, 1,225 calories.

And here is the average food value of Irish potatoes boiled (but with no butter, cream or other addition): Water, 75 per cent; protein, 2.5 per cent; fat, 1 per cent; carbohydrate, 21 per cent; fuel value per pound, 440 calories.

It is generally assumed that the average 24-hour protein requirement for an adult weighing 150 pounds and doing moderate work is about 2 1/2 ounces, though such good authorities as Chickenden and Mindeh have proved that perfect health, growth and nutrition may be maintained on considerably less.

To obtain that much protein on diet of nothing but potatoes one would have to eat about 26 pounds of potatoes, but nobody attempts to subsist on potatoes alone. To obtain 2 1/2 ounces of protein from bread alone it would be necessary to eat about 2 1/2 pounds of all white bread every day.

A large amount of potato in the diet is especially healthful because Irish potato is especially rich in vitamin which promotes growth and good nutrition, and in iron and phosphate of potassium, as well as substances which prevent or cure scurvy.

An acre of potatoes will feed twice as many people as an acre of wheat. Potatoes should be cooked only in their skins, to retain flavor and mineral salts (including iron). When boiled, the potato water should not be thrown away, for it contains valuable food elements. The skins of po-

tatoes should be eaten as much as possible by children and adults, and that is one reason why baked potatoes are healthful and appetizing.

Potatoes are a valuable food for persons with a tendency toward gravel (stone in kidney or bladder) or an excessively acid urine. They are equally valuable in the diet of person with gallstone or gallbladder disease.

Potatoes contain much less starch than wheat, and a tendency toward indigestion can be properly corrected by eating a baked potato with a little butter and a little milk (egg nog). Mrs. D. C. W. I made such a starch diet. I did say that a raw egg is less digestible and gives less nourishment than a cooked egg. Because a raw egg beaten with lemonade, or beaten with milk (egg nog), is more digestible than in any other combination.

Wanted, Physician and Surgeon. Would you kindly advise me who is a good doctor whom I might consult? I prefer one who is a physician and surgeon, and so educated. Some doctors prefer to do no surgery, and a few limit their practice to surgery. Competent physicians in your vicinity will be mentioned if you will send a three-cent stamped addressed envelope for personal reply.

So saying he shook the water from himself and stretched out upon a divan and coolly listened to the Ehas Teel Band.

Immediately two hundred slaves sprang from the ground and seized Caesar and dropped him in the pool in the center of the tent.

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fatty, lustre, glossy, silky and soft, and look and feel a hundred times better.

THE STRUGGLE

THE NEW PARTNER

Join one heart to another and the result in courage and strength is more than two times one. With the new consciousness of having in business problems, John Ferrol felt more aggressive in his plans for getting out of his economic rut than if he had taken some man's advice.

John had noticed a respected woman coming for various conferences with the head of the publishing firm for whom he worked. Monday after his usual routine, John noticed this woman come out slowly and dejectedly from his employer's office, with a package of manuscript under her arm. He had seen many of these come out so from that inner office. He knew what had happened. It was just another volume rejected for publication.

This woman had come to often meant that the fate of the book had hung in the balance for a long time before it was turned down.

With an impulse strange to him, but which he must have caught as a nice sometimes do catch qualities contagiously from women, he stepped up to the disappointed writer.

"Excuse my personal question, madam," he said. "But are you about to submit your manuscript to some other publisher?"

"TODAY'S AID TO BEAUTY"

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we do not care for it in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair; that dissolves and entirely removes all dandruff, excess oil and dirt; can easily be used at any expense by simply dissolving a spoonful of Canthrox (which you can get at any drugstore) in a cup of hot water. This makes a full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, or also a fluffiness which makes it seem much heavier, arranging the hair a pleasure. WHAT THEY REALLY LOOK LIKE

Did you ever amuse yourself by looking at the photographs of public people (in newspaper or magazine) and trying to guess the defects of subjects of the camera were seeking to hide, what good points they were trying to bring out in short what they really looked like?

Having had the experience in my newspaper days of meeting some of the originals of these pictures and finding that they often reminded me of their photographs only as a matter of fact, one of and one member of the family has a family likeness to another. I can never look at such photographs without speculation.

A DAILY PRAYER FOR VICTORY.

(Copyright, 1918)

The practice has become nation wide among patriots of pausing for a minute at noon to say a prayer for the victory of our army and navy. Protestant and Catholic leaders, and secular organizations as well, urge the general observance of the noon prayer.

All our springs are in Thee, O Lord of life and light. From Thee has come the impulse to this hour of publication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published here.

NO TIME TO LOSE

"Experts say that there is no military reason to expect a collapse of the German army this year. There can be no doubt of the ultimate outcome. But without wasting time in discussion as to when the end will come, the business of the Allied armies is to fight without ceasing," says the Wall Street Journal.

"Our Government knows this. It knows there can be no enduring peace until the Stars and Stripes fly at the head of a column marching through Berlin. Not for a moment does it cease its plans to place 4,000,000 men on the fighting line to help blast the way to peace.

"Safety for those men lies only in making the battle more terrible for the enemy after tragic experiences in 1915 the French and British found that artillery standing wheel and tier was a life insurance for their soldiers. This year the Government will provide \$1,000,000,000 for that kind of insurance.

"The machine guns contracted for will cost more than the French 'Cats'. A plenty of good food, clothing and shoes will keep the soldiers healthy, and raise their fighting efficiency. By such care the Government, plans to save lives as well as to hasten the end of the war.

"The appropriations for this work for the present year amount to \$41,000,000,000 and it has been found that \$6,000,000,000 more is necessary to complete the program. The Government hasn't a dollar of its own. By taxes and loans the people, who compose the Government, must provide this sum. This is why the great loan was asked.

"Germany well knows that if this loan was a success it would have a depressing effect upon her own people. It is here that Germany now is fighting with all the desperation of despair. There is no power on earth so skilled in the use of the weapons with which she fights.

"In letters of fire and blood Germany has written the reason why we are in the fight. That martyred Belgium and heroic France, that charmed house called Poland, where the voice of childhood is heard no more, pillaged Serbia and tortured Armenia, are not the reason; they are but paraphrases in the story.

"Looking upon that real page of four years, the full significance of German victory finally dawned upon us. Germany was warring against Christian civilization, against humanity, against the principles that gave America birth.

"Though 'the earth be carpeted with pain and death and whistling on every wind,' our young men joyously consecrate their all to right these wrongs. Germany has opposed her best to them and cannot get them back. Those that fall die with smiles on their faces.

"Shall we who are of the last line, be true to them; true to ourselves, true to our God? Here in our midst a decisive battle is being fought. Bonds and Thrift stamps are the weapons. Every man, woman and child in the country should rally to the common defense, make sure of a glorious victory. It is our duty and our privilege.

SETTLING DOWN.

Janesville is settling down for another winter. Unfortunately the old fashioned cellars where a winters supply of vegetables could be stored are unknown quantities in the present home. Modern construction of houses have lost sight of the old fashioned "root cellar" and consequently the modern citizen has grown to know only the modern conditions of buying by the pound or peck from the grocer in these war days it is not convenient and consequently some hardship is to be expected. The old fashioned home did not plan for the furnace or hot water or hot air heating plant. The cellar was always a place where a side of bacon, a half dozen hams, a supply of potatoes, or winter vegetables, a barrel of apples, a barrel of cider, uncountable other supplies for the winter were stored and kept for winter use. Today it is an over crowded store room and the modern housewife does not know of the cellars of a decade or so ago. The supply of coal is a problem and the rest of the rest of the material comforts are bought from a grocer at advanced prices. However this nation is settling down to a war basis and we must do likewise if we would exist. The cellar must be brought into play as a store room and supplies there if we live through more calls for money for bonds or other demands made for war purposes. The supplies are at hand so take advantage of the opportunity and lay in your winter supply of essentials while

was caused from a week's illness of Spanish influenza which developed into pneumonia. All that loving hands and medical skill could do was of no avail, and he passed peacefully into the world beyond, at the home of his parents, Mr. and Mrs. Dan Finnane of this city.

John Finnane was born west of the city of Evansville on May 26, 1899, and spent his life in that community. With his passing away Evansville loses one of its most promising young men. He led a beautiful Christian life and set many good examples that will be remembered by his associates. On the twenty-seventh of this month he was to have entered an academy to receive military training for the service of his country.

Besides his grief stricken parents he has survived by six sisters, Margaret, Nellie, Annastalia, Alice and Kathryn, residing at home and Juliette who is attending school at Madison. Also three brothers, Dannie, James and Michael. Funeral services will be conducted from St. Paul's Catholic church in Evansville on Wednesday morning and interment will be in Calvary cemetery at Crook's Settlement.

CITY FATHERS HAD BUSINESS MEETING

QUESTION OF WOODEN STRUC-
TURE OF FIFTH LUMBER
COMPANY CAUSES
DISCUSSION.

WILL STORE FLUSHER

New City Sprinkler Will Not Be Put
In Operation Until Next Spring
Planners Hotel Case
Adjourned.

Aside from giving the proposed gar-
bage ordinance its first reading, pass-
ing a resolution appropriating, decid-
ing to store the new city flusher until
next spring, the "city fathers" last even-
ing decided to have the city attorney,
the mayor and the highway commis-
sioner inspect the new structure of the
wood of the Fifth Lumber Company on
North Franklin street and report at
the next meeting that some action
might be taken.

The question was brought up by Al-
derman J. J. Dulin who introduced the
motion for the inspection which he
alleged was contrary to the ordin-
ance and building rules of the city.

The motion caused some discussion.
Alderman Welsh explaining that James
Fifield had stated that he expected to
erect a new structure in the spring and
it understood he was not seeking to
defend the lumber company. Alderman
Pautz stated that Mr. Fifield had
told him that he was going to erect a
new structure in the spring of 1918, but
that it had not been done and he did not
know if it was going to be done.

Alderman Dulin supported his motion in a
spirited manner and made statements
relative to past alleged violations on the
part of the lumber company in the
past. The motion for inspection was
passed and the structure will be
inspected in the next few days.

After the reading of the minutes a
motion was made by Attorney
Charles Pierce stating that he
was to substitute for George Suther-
land in defending the Planners Hotel
license. He asked for an adjourn-
ment for two weeks as he is confined to
his home with illness. On motion
of Alderman Dulin the adjournment
was granted and the Planners Hotel
case will be given a hearing on
November 4th.

A communication was presented by
City Clerk James Worthington from
the Wisconsin Dental Association re-
appropriation of \$400 for the Dental
Clinic.

Alderman Cronin introduced a res-
olution ordering that the council or-
der electric lights installed on Ruger
avenue midway between Forest Park
Blvd., and Ringold streets. On mo-
tion of Alderman Pautz the council
ordered the lights installed.

The meeting was again opened at
eight fifteen o'clock and Alderman
Welsh moved that the sum of
\$2,945 from the income of the city be
transferred to the general fund. The
motion was passed.

Alderman Welsh introduced an or-
der to the effect of \$750 to be paid
to the March Motor company of Mil-
waukee being pay in full for the new
city sprinkler and flusher. The order
was allowed.

Alderman Welsh read a communi-
cation from the Summers Contracting
company requesting permission to use
a portion of St. Lawrence avenue to
store building material. The permis-
sion was granted. Alderman Welsh
advised the council that the \$400 re-
quested for the Dental Clinic had al-
ready been taken care of by the May-
or.

Alderman Welsh in a strong appeal
requested that the street commissioner
be given extra compensation for his
position as well as the street com-
missioner. The council ordered that
the street commissioner be given the
same salary as he was getting. Alderman
Dulin introduced a resolution that
\$400 be paid to the city attorney for
his services as street commissioner. The
order was adopted.

Alderman True introduced an order
to the building of curb and gutter on
Yankee street from the city to the
March Motor company of Milwaukee
being pay in full for the new city
sprinkler and flusher. The order
was allowed.

in the Janesville banking district. The
quota of \$1,100,000 was over-subscrib-
ed by \$133,150, surely a record for the
people of Janesville can well be proud
of.

Janesville has made a wonderful
showing during the Fourth Campaign
and it will be source of pleasure to
the Janesville boys in France, when
the Gazette reaches them and they
find that the home folks are back of
them with every dollar they possess.

The following report has been is-
sued by the executive committee of the
Fourth Liberty Loan campaign.

The Liberty Loan Committee of the
Fourth Liberty Loan Campaign begs
leave to submit the following report
